# LINING LIST

The new era of prosperity will not start tomorrow. It will not be based on false hopes, on tips and rumors, on inflated values or on questionable prospects. It will not be an unreasoned or unreasonable new era, but it will be an era of prosperity, none the less.

It will come whether the popular sentiment is expecting it or not, but it will lay its greatest treasures and its highest rewards in the hands of those who are now preparing for it and who go to meet it far down the road, with courage, faith, resourcefulness and definite action.

The nurseryman who lets his lining suffer will not be ready when this era comes. The one who keeps everlastingly at it will more than recoup the losses that all have sustained in the last two or three years.

The following is all first class stock and is sold under our usual terms and conditions.
